An early win for this coalition – new crosswalks installed by NC DOT (three days after we requested them!)

Temporary **curb extensions** and high-visibility **crosswalks** will be used to calm traffic.

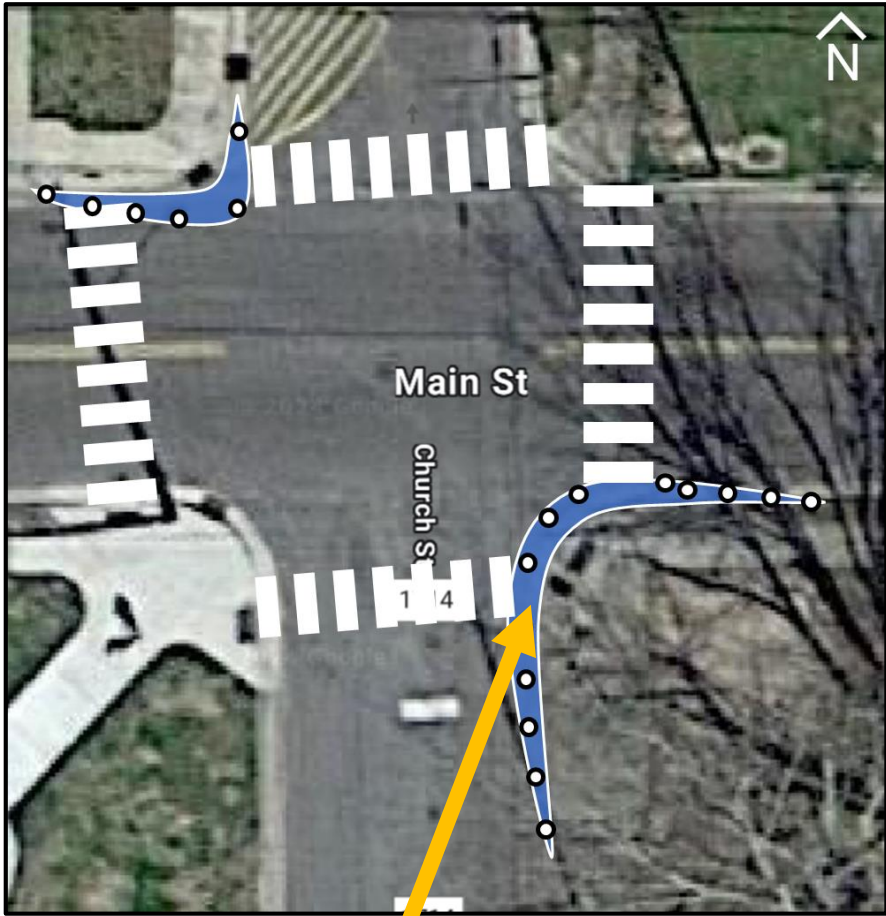

Curb extensions decrease crossing distance, slow traffic, and make pedestrians more visible.

High-visibility ladder-style crosswalks remind drivers to watch for pedestrians.

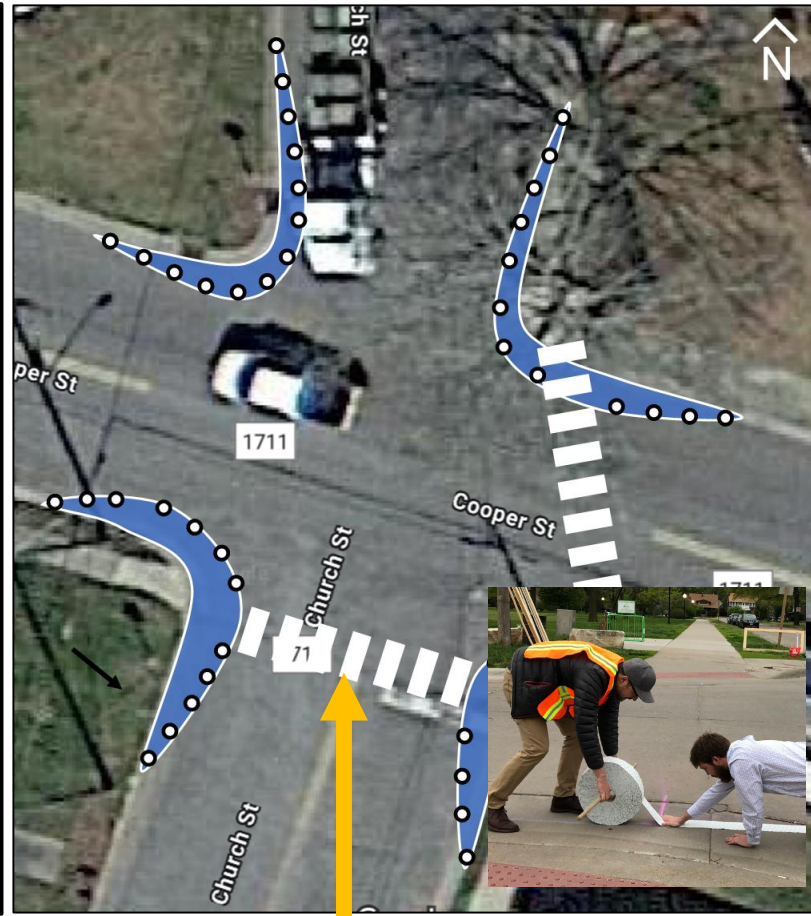

Main and Church

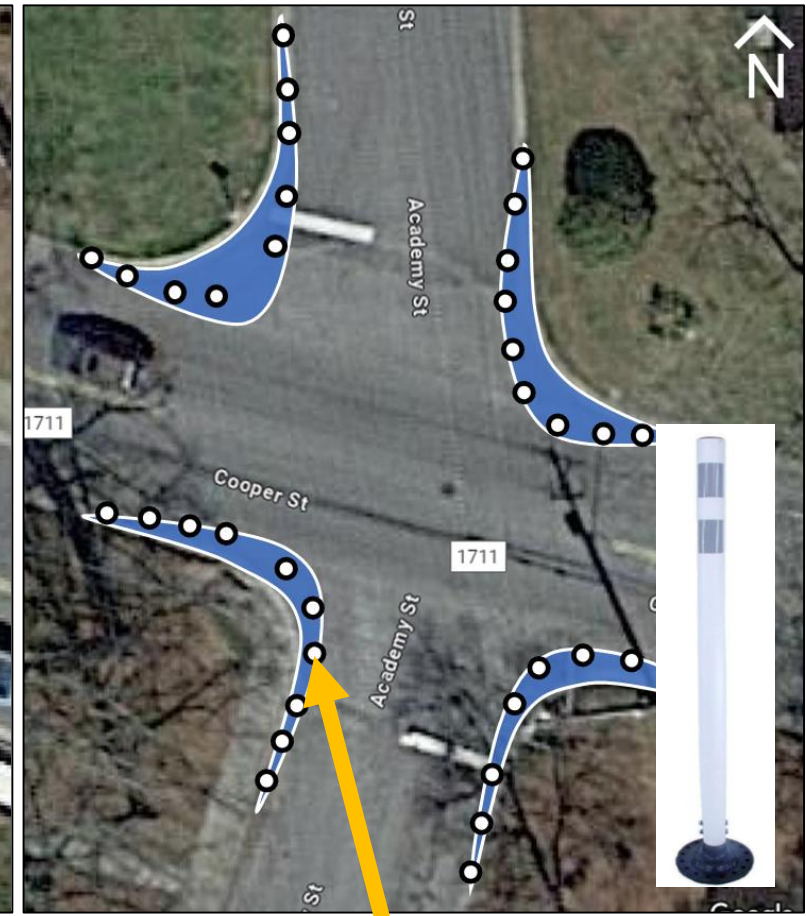

Blue paint and contractor tape will be used to demarcate extensions (matching Winterville's aesthetic).

Cooper and Church

High-visibility, reflective crosswalks will be constructed out of **contractor-grade traffic tape**.

Academy and Church

Flexible **delineator posts** adhered to surface will allow for straightforward removal.

Timeline

Now

- Collect pre-installation data
- Outreach through press releases, social media, town newsletter, signage, project website

Late April/early May

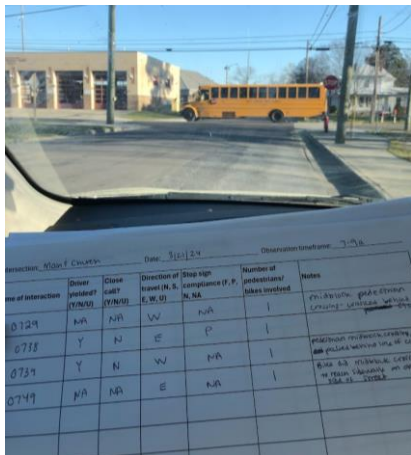

- Community installation days (please join us!)

May 8, 2024 (Bike & Roll to School Day)

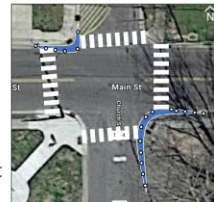

Summer 2024

- Collect post-installation traffic data & community feedback

Temporary changes are coming to this intersection!

We're testing out a new street design with curb extensions and high-visibility crosswalks to make it safer for kids and community members to cross the street.

Help us install the quick builds or tell us your thoughts!

Project sponsored by the National Center for Safe Routes to School & General Motors

- How did you travel through this intersection?
 - I walked
 - I biked
 - I drove
 - Other: _____
- Which of these apply to you? (Check all that apply):
 - I live in [Winterville](#)
 - I work in [Winterville](#)
 - I go to school in [Winterville](#)
 - My child goes to school in [Winterville](#)
 - I am a visitor to or traveling through [Winterville](#)
 - Other: _____

4. If you walked or biked: Please rate your agreement with the following statements:

	Strongly agree	Agree	Neutral	Disagree	Strongly disagree
I felt safe crossing this intersection.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I felt like drivers could see me.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Drivers yielded to me.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
