UPDATE

Winterville Utilities Electric Rate Change "Power Cost Adjustment (PCA)"

As everyone is aware, Winterville enacted a Power Cost Adjustment (PCA) to the Electric portion of the Town's Utility Bill in the Fall of 2022. This was done in an effort to keep the Town's financial position secure during the recent global events which has had an adverse impact on the costs of purchasing energy.

The original PCA was \$.05 per kWh. In March 2023, Town Council lowered the PCA to \$.025 per kWh. The PCA will now be lowered again to \$.015 per kWh, as some of the energy pricing increases have continued to decrease. The new lower rate will be reflected on your July 31st bill. The rate of \$.015 will remain in effect until December 31st, at that point in time it will be reviewed again.

The Town is committed to continually reviewing the energy market and making more positive adjustments to the PCA, as we are able to level the financial impact to the Town. Staff will continue to review all options available to the Town and will keep citizens aware as changes are made. Thank you for your continued patience during these challenging times!

Grilling Safety

There's nothing like outdoor grilling. It's one of the most popular ways to cook food. But, a grill placed too close to anything that can burn is a fire hazard. They can be very hot, causing burn injuries. Follow simple tips and you will be on the way to safe grilling.
