STORMWATER ADVISORY BOARD
OCTOBER 21, 2026
6:00 P.M.
WINTERVILLE OPERATIONS CENTER

I. **CALL TO ORDER.**
II. **APPROVAL OF AGENDA.**
III. **APPROVAL OF MINUTES.**
IV. **OLD BUSINESS- PROJECT DISCUSSIONS**
V. **REPORTS FROM STAFF**
VI. **ADJOURN.**

SPECIAL NOTICE: Anyone who needs an interpreter or special accommodation to participate in the meeting should notify the Public Works Director at 756-2221 ext. 2428 at least forty-eight (48) hours prior to the meeting. (Americans with Disabilities Act (ADA) 1991.)

Members in attendance: Bryan Fagundas, Wayne Peed, Jonathan Powell, and Shetoria Roach.

Staff in attendance: Cliff McGuffin, Todd Bess, and Kimberley Moore

Call to Order: Cliff McGuffin called the meeting to order at 6:03 pm on October 15, 2026

Approval of Agenda: Motion made to approve the agenda by all members stating "I." Motion carried unanimously.

Approval of Minutes: Motion made to approve the minutes by stating "I." Motion carried unanimously.

Old Business - Project Discussions: Cliff shared this will be the last meeting for the year. The next meeting will take place in January. The last time we spent time discussing the assessment by The Rivers organization. Cliff apologized that he did not have copies for the meeting. Once he has them, he plans to share the information by email with the board to review at leisure. Member Peed posed the question "would the board vote on the assessment?" Cliff reminded him that this is an Advisory Board, there is no voting. The board could make suggestions and or recommendations before it is presented before the Council, but it has already been proposed, so this would be for review.

Cliff gave an update on the Nobel Canal Project. The Wooten Company is about ninety percent completed with the design portion. It will most likely be Spring 2026 before we see anything () They are upgrading the pipes and Stormwater system. If you're familiar with Chapman St., that crossing was completed years ago. Upstream from there it will cross Mill St. part of Tyson St., Railroad St. and heads north. Pipes will be upgraded as well as a waterline on Tyson St.to help with the water flow. There may be some street closures during this period. It also may coincide with the Old Tar project, which dates have been pushed back several times. The Town will work around the school schedules as much as possible.

Cliff opened the meeting for discussion. Bryan posed the question: “Will this take care of the pipes under the railroad (tracks.)” Cliff said in “Stage II” we would be looking at the area near Town Hall which go back toward Jones St. where there are some flooding issues.

Bryan posed a second question: When Rivers did the presentation to The Council, how does staff prioritize which projects they decide? Cliff: conversations take place and when changes take place within the organization thought processes may change according to who is overseeing the project. Staff will sit down and go over which areas may need to take priority per future development, funding, etc.

Conversations were made during the budget proposals regarding water and stormwater rates. But nothing has been proposed to present to The Council.

Discussions led to how to acquire funding for a rate study to help with a proposal to Council regarding the need to raise residential water and stormwater fees.

Adjourn: Motion to adjourn. Motion carried unanimously.

Meeting adjourned at 6:15 pm.
