Winterville Electric Power Cost Adjustment

As a result of the extreme cold weather that hit the North East United States in recent months, the cost the Town pays for natural gas drastically increased. The Town currently purchases its power from the Kings Mountain Energy Center (a combined cycle natural gas generation plant) located in Kings Mountain, North Carolina. To cover the increased cost of natural gas and to keep the Town’s Electric Fund financially secure, the Town adopted a Power Cost Adjustment (PCA) of 5 cent per kWh.

For cycle one customers, the rate increase will be billed as of March 30, 2026 and will be due April 15, 2026.

For cycle two customers, the rate increase will be billed on March 15, 2026 and will be due March 30, 2026.

Due to the natural gas prices recently decreasing, the Town plans to end the PCA on July 1, 2026. We realize that this increase will be an unpleasant change for our customers, so please know that we appreciate your patience as we continue to monitor the prices.

Please contact Customer Service at (252) 756-2221 ext. 8009 with any questions or concerns.

Zumba

Perfect for everybody and every body! Each Zumba class is designed to bring people together to sweat it out.

How it works: We take the "work" out of workout, by mixing low-intensity and high-intensity moves for an interval-style, calorie-burning dance fitness party. Once the Latin and World rhythms take over, you'll see why Zumba Fitness classes are often called exercise in disguise.

Benefits: A total workout, combining all elements of fitness - cardio, muscle conditioning, balance and flexibility, boosted energy and a serious dose of awesome each time you leave class.

6-week session
