North Carolina's Safest Cities of 2026: Winterville #8

The latest State of Safety survey by "safewise", residents of North Carolina reported fewer first-hand experiences with all types of crime except for property crime. In keeping with this downward trend, North Carolinians are less concerned about crime and more likely to say they feel safe calling The Tar Heel State home.

Mosquito Season is here!

The Town asks that residents look to find and empty any containers or standing water on their property. This is where mosquitos lay their eggs and where the larva hatch. The mosquito monitoring program has begun to keep the population under control. The 3 D's of protection:

Drain:

- Dispose of old tires. Tires can breed thousands of mosquitos.
- Dump standing water in buckets, flowerpots and planters, children's toys and tarps or pool covers.
- Clean out gutters and unclog drains.
- Clean pet water dishes and bird baths regularly.

Dress:

- Wear light colored, loose fitting clothing.
- Long sleeves and pants are recommended when outdoors, especially at dawn and dusk.

Defend:

- Use EPA-registered insect repellents with DEET, picaridin, or oil of lemon eucalyptus.
- Report areas of standing water to local vector control.
- Stay informed about local mosquito control programs and participate when possible.
